HOLLYWOOD BOWL EMERGENCY REPAIR OF EXISTING WATER MAIN

On November 12, 2003, your Board approved contracts with five firms to provide on-call, as-needed emergency water system repairs, and we committed to reporting to your Board when repairs were conducted using these contracts.

Parks and Recreation requested our assistance investigating the source of water leaking into the understage offices at the Hollywood Bowl. Our investigation determined that the source of the water was a leaking water line. Because the water line was more than 14 feet deep, it was more feasible to complete the repair by contract rather than using County staff. Between March 2 and March 10, 2004, Colich and Sons, Inc., assisted in locating and repairing the leak at a cost of approximately \$18,000.

If you have any questions, please call me or your staff may contact David Howard at (626) 300-2300.
